

## flashBAC GOLD-3 reactions kit

### Product Information

**Product Name**

flashBAC GOLD-3 reactions kit

**Research Area**

Viral DNA

**Application**

flashBAC GOLD

**Kit Function**

Proteins susceptible to protease breakdown via FlashBAC system

**Related Vector**

Any vector that utilizes homologous recombination at the polyhedrin locus in insect cells.

**Unit Size**

300ng in 15µL

**Reaction**

3

**Contents**

flashBAC GOLD liner DNA

**Gene Deletions**

Chitinase (chiA), Cathepsin (v-cath)

**Storage temp.**

Part 4°C, Part -20°C

**Shipping Condition**

Room Temperature
