

flashBAC Original-96 reactions kit

Product Information

Product Name

flashBAC Original-96 reactions kit

Research Area

Viral DNA

Application

flashBAC Original

Kit Function

Membrane and secreted proteins via FlashBAC system

Related Vector

Any vector that utilizes homologous recombination at the polyhedrin locus in insect cells.

Unit Size

9.6µg in 450µL

Reaction

96

Contents

flashBAC Original liner DNA

Gene Deletions

Chitinase (chiA)

Storage temp.

Part 4°C, Part -20°C

Shipping Condition

Room Temperature
