

BacPAK6 Linearised DNA-24 reactions kit

Product Information

Product Name

BacPAK6 Linearised DNA-24 reactions kit

Research Area

Viral DNA

Application

BacPAK6

Kit Function

Expression of membrane, secreted, and complex/highly processed proteins via BacPAK6 system

Related Vector

pAcOET vector

Unit Size

20ng/μL

Reaction

24

Contents

20ng/μL BacPAK6 Linearised DNA suspended in Tris-EDTA buffer pH 8.0

Gene Deletions

Digestion of BacPAK6 DNA at three sites with Bsu36I removes lacZ and part of ORF 1629

Storage temp.

Part 4°C, Part -20°C

Shipping Condition

Room Temperature
