

FlashBAC Protein Expression Kit with ALL-IN-ONE virus extraction and titration kit

Product Information

Product Name

FlashBAC Protein Expression Kit with ALL-IN-ONE virus extraction and titration kit

Research Area

Protein expression kit

Application

FlashBAC

Protein Tag

N/A

Unit Size

5+100 Reactions

Subclone Construction Method

Restriction Enzyme / MCS

Recombinant Vector Screening

lacZ gene

Recombination Method

Homologous Recombination

Promoter

polyhedrin

Recommend Cell Line

Sf9

Contents & Storage

1. flashBAC ULTRA DNA 5 reaction kit (500ng/μl)
2. Control transfer vector DNA (expressing lacZ under polyhedrin (polh) gene promoter) (500ng/μl)

FlashBAC Protein Expression Kit with ALL-IN-ONE virus extraction and titration kit

- 3. FlashBAC Transfection Reagent (50µl)
 - 4. ESF 921 insect cell media (1L)
 - 5. TC-100 protein free growth media (50ml)
 - 6. Insect Sf9 cells frozen (1 x 10⁷ cells)
 - 7. FlashBAC ALL-IN-ONE virus extraction and titration kit (Cat.NO KTT1036)
- storage temp ☐ Part 4°C, Part -20°C, Part Liq. N₂
- Shipping Condition ☐ Part Room Temp, Part Dry Ice
-
